

**Dieter Haas**

Dieter Haas is a professor of microbiology at the University of Lausanne, Switzerland, where he teaches general microbiology and bacterial genetics. He obtained a Ph.D. in microbiology at the Swiss Federal Institute of Technology in Zürich (ETH-Z), Switzerland, in 1974, and carried out postdoctoral work in Melbourne, Australia, in Kansas City, USA, and in Paris, France. From 1978 to 1993, he was a group leader at the ETH-Z, before joining the University of Lausanne in 1993. He was the President of the Swiss Society for Microbiology from 2001 to 2003. His main research interests are the metabolic versatility and regulatory mechanisms of pseudomonads, with an emphasis on the role of small noncoding RNAs in the expression of secondary metabolites and extracellular enzymes.
